Glossary

Objectives
Specific means by which the institutional goals will be attained. Intended goals and competencies by which an institution or program defines how students will fulfill its mission or purpose. Objectives should describe the content and skills important in mission or program achievement.

Outcomes
The expected results that should occur when the institution’s mission and goals are realized. Measurable results that demonstrate an institution or program is fulfilling its objectives. Results may be measured by quantitative data, qualitative data, or other observable means that demonstrate the aggregate achievement of objectives.
